

UNLEASH YOUR POTENTIAL

Oracle Cloud Apps Team Open House

Tuesday, November 7, 2017, 5-7pm EST

Oracle HCM & GRC Cloud Application teams are looking to grow and hire engineering staff in New York. The work in the team includes some of the most exciting technologies in cloud software development including machine learning, adaptive UI's, and semantic web

Current team includes a diverse group of both young and experienced engineers some of whom are published authors, W3C members, field experts, patent-holders, and graduates of elite schools such as University of Southern California (including DEN@Viterbi)

This is a once in a life-time opportunity to grow your career as an engineer. Oracle encourages, and reimburses, continuing education throughout your career. Join us and learn why so many talented engineers have chosen to join this team and if it is a path that will help you achieve professional fulfillment

Preferred Qualifications:

Technically skilled in OOP programming

BS or BA in Computer Science, Electrical Engineering, or a similar technical field

Desire to work in a high-energy environment & affection and love for writing OOP code

Understanding of OOP and Design Patterns & Interest in developing business oriented software applications

Some experience with modern development tools (Eclipse, SVN, GIT, etc.)
